

## Computer Consultants Corporation

### Adobe Illustrator

---

Length of course: 1 class day (6 hours)

Prerequisites: Before taking this course, you should have a basic understanding of your computer's operating system. For example, you should know how to launch an application, create and save files, and copy files from CD and other media.

Learning Objectives: Students will learn to use the basic features of Illustrator and begin to apply the skills that will help them create complex drawings and type effects.

---
